

Stehle Product Information

Grooving Saw Blades HW - adjustable

Machine / Application

- table saws
- clipping saws
- for precise grooving in solid wood along and across the grain as well as in wood-based panels such as particle boards, MDF, etc.

Design / Advantages

- 3 parts, adjustable by means of spacers
- additional expansion slots
- tooth configuration: scoring saw blade top bevel-flat "ES-F", main saw blade flat "F"
- cutting material: HW TCO6
- precise grooving thanks to special tooth geometry

Notes

- adjustable in steps of 0.1 mm

Material suitability

 for solid wood and soft wood products, raw wood, glued solid wood, thermal wood, dried hard wood, dried soft wood, cork

 for OSB, laminated particle board, MDF, wood fiber boards, HDF, WPC, lightweight panels, composite materials

Grooving Saw Blades HW - adjustable - top bevel-flat + flat + top bevel-flat
